

A3
concl

a power supply circuit adapted to supply power to the light, wherein the power supply circuit comprises a first circuit portion disposed within the motor housing and a second circuit portion disposed within the blade case and
a coupling connecting the first circuit portion and the second circuit portion.

Please cancel claims 23-25 without prejudice for filing in a divisional application.

Please add the following new claim:

A4

26. (New) A cutting tool as in claim 17, wherein the power supply circuit comprises:
a motor housing accommodating a motor for driving the saw blade, wherein the blade case and the motor housing are formed separately from each other and are joined to each other along a joining line,
a first circuit portion disposed within the motor housing and a second circuit portion disposed within the blade case, and
a coupling connecting the first circuit portion and the second circuit portion, wherein the coupling is arranged and constructed to connect the first circuit portion and the second circuit portion from the outer side of the tool after the motor housing has been joined to the blade case.
